

**GREEN COUNTRY PUBLIC SCHOOL**

*A School With a Difference...!*

## **TESTIMONIALS**

☞ I like my school because there are lots of activities like yoga, sports, music, art & craft.

**Theertha Hariharan (Gr-I)**

☞ I love my school because I learn many things. I play with my friends and have a nice time here.

**Akshara Denny (Gr-II)**

☞ Our school is one of the most structured institutions. The teachers explain all concepts really well and leave no doubt uncleared. The atmosphere in the school is really friendly. I am blessed to be a student of GCPS.

**Rashmi Anilkumar (Gr-VII)**

☞ GCPS has been the site of so many experiences and memories. When I first joined I didn't know what to expect and it was like treading unknown waters. What I found here was teachers with the right combination of discipline and guidance. Now far from being a newcomer, I feel like I have always been a part of the GCPS family. GCPS continues to inspire me to "Reach Out, Reach High and Reach Beyond"!

**Mahie J Rai (Gr-VIII-ICSE)**

☞ At GCPS, we are encouraged to take part in both scholastic and co-scholastic events. I personally like the touch of both these aspects. The teachers are amazing at their respective subjects and do not fail to recognize our potential. During my 10 years of schooling, I have learnt many life skills and values that I will remember forever.....

**Rahil S Iyengar (Gr-X-ICSE)**

GCPS has provided a multi-dimensional platform for my children to experiment as well as get exposed to various schools of thought and experiences. Their optimistic behaviour towards any situation they handle is a testimony to the values and skills being imbibed through the teachings, encouragement and emotional support from the staff and management. My children are very good examples of “unbundling” of their hidden talents. At GCPS both of them are truly developing into all-rounders.

**Mr. G. GIRIDHAR SHARMA & Mrs. KASTURI SHARMA -  
Parents of Akshata Sharma (Gr-V) & Madhav Sharma.G (Gr-VIII-ICSE)**

It was very important for us to choose a school that could provide the right balance of academics, sports and extra-curricular activities. We understood that GCPS not only believes in the philosophy but also practices it at every step. We are so glad that we took this decision as we see our child grow as a person and find her own space in life with confidence.

**Mr. RAGHAV N. KISHORE & Mrs. SOWMYA RAGHAV -  
Parent of Pratibha Raghav (Gr-IV)**

I truly believe that the hall mark of a “Great Institution” is when the child wakes up in the morning and shows excitement and is keen on attending the school. The school has provided them with solid grounding in multiple facets-academic and personal growth. The constant feedback and high quality interaction during PT Meetings ensure that we are completely involved in the development process and support our child as required.

I have cherished every moment of my interaction with the various authorities in the school. I would strongly recommend the school to any parent aspiring for all-round growth and development of their children. “A school with a great vision and difference”

**Mr. RAJ BHARATH.G & Mrs. LAKSHMIY.A.B -  
Parent of R.ANAMITRA (Prep-I)**

Studying in GCPS has helped me emerge as a confident person well prepared to take on life's challenges through holistic education. The GCPS methodology emphasises on overall development bringing out the best in every student across key dimensions such as self-discipline, honesty, communication, hygiene, relationships and academics, resulting in a formed and educated mind.

**Ahima S Kalluraya (Gr-X ICSE) Ex-student [2015-16]**

“Life is beautiful.....school days are even more beautiful .....they are the very life of life”.

Some memories never fade; they linger in your heart forever. School days are one such memory that are always remembered with nostalgia. I think GCPS is a great example of how a school can work with parents and students to make school life interesting and fun as well as prepare the students for the future. GCPS has provided a multi-dimensional platform for us to experiment as well as get exposed to various schools of thought and experiences. I have had the opportunity to blossom in academics, sports & extra-curricular activities.

When I look back at GCPS as a student -

- It gave me a strong value system, which I cherish.
- It gave me a sense of discipline (Thanks to the staff & management), which has stood me in good stead.
- It gave me solid academic basics, which has been the foundation of my success.

**Shriya.R (Gr-X ICSE) Ex-student [2012-13]**
